ECRA General Assembly 2022

COVID-19 made us reconsider our planning of our General Assembly, which was originally due to be held in Brussels in March 2021. We will **postpone our General Assembly to March 2022**. The agenda and outline of the GA will stay the same or similar to the original format: a two day event, with high-level discussions on Day 1 and scientific talks and break-out groups on Day 2. So, tentatively, feel free to earmark 8-9 March 2022 for the ECRA GA. As topic, the ECRA Executive Committee has decided to plan around the topic of **Extreme Events** within the context of **climate change**, and how **decision making and risk management** could be tackled.

For **10 March 2021**, the original dates of the General Assembly, we would like to invite you to **our online anniversary event** which will take place online.

If you have input or want to sign up for updates: 10y@ecra-climate.eu.
